

Support, development and infrastructure development provide solutions to your I.T. problems

OVERVIEW

Dictasol I.T. solution is the ideal choice for your projects that involve processes such as software development, enhancement, implementation, customisation and maintenance. We can offer you a custom built package to meet your required needs, whether it is for a one off project or multiple tasks.

We aim to provide you with an outstanding I.T. experience. This is achieved by us having a dynamic and highly skilled team of I.T. professionals combined with the use of cutting edge technology.

I.T. SERVICES

Our specialist team will ensure that you receive the best possible service and outcome to your desired project. We are able to handle almost any I.T. service at any stage of your project. An overview of our I.T. services include:

- ⊙ Software development
- ⊙ Web development & Maintenance
- ⊙ Search Engine Optimisation
- ⊙ E-mail marketing
- ⊙ E-business consultancy
- ⊙ Web based research
- ⊙ PowerPoint Presentations

SOFTWARE DEVELOPMENT

We can help to reduce your software development costs as well as being able to assemble systems quickly. This will help to reduce the maintenance burden that is sometimes associated with the support and upgrade of large systems.

Dictasol provides component development to companies on most of the popular technologies and platforms, including:

C++, Java, J2EE, Active X, VB.NET, COM/COM+/DCOM, ASP.NET, SQL Server

Our developers and graphic designers work in unison so that they can produce a high quality final product. Both the design aspect and the user experience are given full focus so that all your objectives are met within an agreed timeframe.

SEARCH ENGINE OPTIMISATION

E-commerce is a very powerful market tool. We can help to optimise your website. Optimisation is key when trying to increase the ranking of your website in search engines. If you prefer to just publicise your business on the internet this solution can also be provided.

E-MAIL MARKETING/CONSULTING

E-mail marketing is a direct method to communicate commercial or fundraising messages to a large audience instantly. We can help you to draft and set up this solution to increase your company profile.

We can help you plan, achieve and maintain the perfect I.T. strategy no matter how complex and help you to maintain it so that costs and company expenditure are at a perfect balance.

POWERPOINT PRESENTATION

PowerPoint can be an incredibly powerful presentation tool. By developing graphics unique to you we can guarantee that your presentation will be powerful and create an impact. We have a fully competent design team with expertise in MS PowerPoint Presentation, Photoshop, Illustrator, Flash and Multimedia design.

As the size of projects vary greatly we base our cost per project. Once we have established your needs, we can assist to create a customised presentation that not only looks great, but also reduce your overheads.

THE I.T. SOLUTION

In today's competitive market you need to balance costing with the need for a function to help your business appreciate.

Dictasol can help you to optimise your business opportunities by providing an organised and choice filled plan to meet all your requirements. Thus ensuring that you are in control every step of the process. With a comprehensive range of I.T. solutions and support & maintenance, peace of mind is guaranteed.
